

### From the Leadership Team

Hi,

We have had some entrepreneurs in the making this week, with Rooms 33 and 34 running their small business stalls in the school gym on Tuesday and Wednesday.

Throughout this term the two classes have been developing and planning their businesses. The aim was for them to produce a product that can be sold to the students in our school. Each group have had to come up with a product, develop a business plan, survey their target audience, find investors, organise their finances and advertise their business and product.

The learning and collaboration that has gone into this project is immense and the outcome witnessed has been fantastic. The gym was packed and buzzing as students lined up to purchase a number of products made or developed by the students. The students will now be working out what profits have been made to pay back any investors or donate the money to charity.

Thank you to all those teachers, students and parents who contributed to this process and have made the "Small Business Stalls" a success. Well done to the students of Room 33 and 34 for all their hard work and learning to produce such a fabulous couple of sale days.

Emily Huzzell
